X1. Fiscal Officer’s Report

Fiscal Officer Report
Ross A. Cockfield, Fiscal Officer
December 2016
Prepared January 2017

The Library completed 2016 in a reasonably good financial position. Our expenditure position was greatly improved by reductions in health care costs, the loss of higher paid staff, and a reduction in library materials purchases from 2015. Further reductions in operating costs are planned for 2017.

The 2014/2015 audit is nearing completion. The final requirement was for me to submit adjusted financial reports with notes to the financials to the Auditor of State. The Auditor has a new requirement which was implemented in 2016 stating that entities must complete their own financial reports with accompanying notes which here-to-fore had been done by the auditors. Since our audit fell during 2016 the new requirement applied. As such, these financials have been completed and submitted.
In speaking with Kevin he indicated that they were about 90% complete since they just received our revised financials. He mentioned that there were some errors noted in the payroll testing which he will send to me.

The Library is scheduled to have a public sale of “computer equipment and furniture unfit for public use” on February 2nd, 3rd, 9th and 10th. Proceeds of the sale will go to the General Fund under “Sales of Personal Property”.

Once I’ve completed the reconciliation for 2016, closed it out and submitted our report I’ll begin the process of revising our five year forecast. In 2016 most of the fat was squeezed out of our operations through salary and medical cost reductions. While we appear to be in a good financial position, I expect property tax revenues to slowly decline which would put pressure on operating levels and available fund balances. The Director and I will continue to look for ways to reduce operating costs and improve efficiencies, but in the face of expected declines in revenue, additional sources of program support are needed.

Lastly, in an effort to improve our internal controls and potentially reduce audit costs, I suggested the creation of an Audit Committee of the Board to periodically review our financial operations as against our Internal Control Policy, without performing an audit the Committee would review procedures to insure that policies and practices are being followed. With such a committee in place, auditors will rely on Audit Committee reviews for certain aspects of the audit thereby reducing time, effort and associated audit costs. I would be happy to work with the Board in such an effort or take the lead and bring back suggestions as to how this could be effectively implemented.

Mr. Fambrough asked what the current balance is and what will it be at the end of 2017.

Mr. Cockfield stated that the current balance is not available because 2016 has not been closed out yet. He also stated that it would be irresponsible of him to give a number for the ending balance of 2017, without first making a projection.

Mr. Mays motioned that the Board accept the Fiscal Officer's Report.

Fambrough second the motion.
