The audit is completed for 2014/2015. I wish to publicly thank the Board for providing me the latitude and support to bring our financial condition to a manageable state. Working in a fluid environment says that there are always things that can be done to improve our policies and procedures recognizing that fiscal operations change with the ebbs and flows of library operations. However, my task in spite of these circumstances is to accurately present our financial condition and present information to Administration and the Board on which informed decisions can be made. This I believe I’ve done and will continue to do.

The areas that were commented on during the post audit meeting have either already been addressed or can be addressed without difficulty. Some represented weaknesses in internal control and some represented errors of omission. To repeat the Auditors comments, the errors of significance occurred during 2014 prior to me coming on board.
