X. Fiscal Officer’s Report

Fiscal Officer Report

Ross A. Cockfield, Fiscal Officer

February 2016
Our permanent appropriations budget has to be passed by March 31 and submitted to the Budget Commission. Our attempt in establishing this year’s appropriations is to balance our expenditures against expected revenues. Unfortunately, estimated property tax revenues are down from last year’s projections by approximately $128,400 or 14.6% and while we can expect additional revenue from our delinquent collections those amounts are not known nor are they part of the certificate. PLF revenues are up only by 6.6% or $91,732. This net loss in estimated revenue forces us to look at our reserves to balance our anticipated spending for this year. And while this is the case we expect delinquent collections to make up the shortfall as they have been averaging $200,000 a year for the past four years.

Our Permanent Appropriations must be approved by resolution and filed by March 31st which will set our appropriation levels for the year. The Director and myself and the management team have been working to make any necessary changes and have presented them to the Finance Committee for review. After the 31st any subsequent changes to the appropriation levels must be done so with Board resolution approval. Any reallocations of funds do not require Board approval so long as they don’t increase overall appropriations. The most significant component of our 2016 appropriations is the money being set aside for facility and property maintenance. These items were discussed in the Building and Grounds Committee meeting.

As a note to the Board, the Library must submit its Tax Budget for 2017 to the East Cleveland School Board of Trustees by May 31st. I should have a preliminary draft to the Finance Committee by next month for their review.

Mr. Silvera moved that the Board accept the Fiscal Officer’s Report. Ms. McClarin seconded the motion.

Discussion:

Mr. Mays asks for clarification as to whom the delinquent collections are from. Mr. Cockfield replies that it is in reference to East Cleveland property owners.

Roll Call Vote: Ms. Synor (yes), Mr. Silvera (yes), Mr. Fambrough (yes), Ms. McClarin (yes), Mr. Mays (yes)

Yes – 5.

Motion carries.
XI. Finance Committee Report

Mr. Silvera stated that the Finance Committee did meet this month and there were issues with the personnel compensation and benefits infrastructure and having a new Human Resources Director will help address those issues. Mr. Silvera said he seeks to maximize the benefits to employees while minimizing the expense to the Library's budget. Mr. Silvera stated the Board needs to work harder in reaching out to the private community to help raise money. He and the Fiscal Officer are working on materials to give to the Board to assist in bringing gifts to the Library.

Ms. Synor added that Ohio is one of only two states that set aside money for their libraries. Ms. Synor goes on to say that a crafted message accompanied by statistics will aid in the Library's efforts to raise money from donations. She also states that the Board should consider several options including grant writers as a means for finding money to support the Library.

Ms. McClarin commends the Director and staff for the new direction packages with the new logo for the Library and also the business cards that have been very useful in getting the East Cleveland Public Library's name out to the public.

XII. Buildings and Grounds Committee Report

Mr. Mays stated that the Buildings and Grounds Committee met this month. One issue that was discussed was the need to repair the roof and if the Library is a historical building, the need to use original materials. Mr. Mays commented on the need for the front stairs to be repaired as soon as possible to avoid injury to anyone. He continued by saying it was suggested during the committee meeting that it was suggested that the Director go out for bids on the roof and some of the other repairs. Windows and lights were other items that were mentioned during the meeting. Mr. Mays stated that the budget allowed for the needed repairs to be made.

Mr. Fambrough also suggested that the Board follow the law and go out for bids to get the work done.

XIII. Personnel Committee Report

Ms. McClarin opened by stating the Personnel Committee meeting was productive and that they were introduced to two administrative employees: the new Human Resource Director, Ms. Stephanie Wood and the Public Services Manager, Mrs. Paula Reid-Tucker. Ms. McClarin mentioned that the Director brought attention to outdated material that was still on the shelves as well as missing materials that were
purchased twice. Both issues are currently being investigated by administration. Ms McClarin recounted Ms. Synor's statement about no tolerance of theft and misconduct. She continued by mentioning the Human Resource Director had already started investigating issues that were previously brought up in Trustee meetings.

Ms. Synor states that "change brings resistance". She adds that the Board should follow the law and while saving money, the staff will resist some of the changes. Ms. Synor also mentions the outdated policies and procedures are being addressed with a new draft that is currently being reviewed by and external attorney.

Mr. Mays asks a question related to Buildings and Grounds and the process by which the Board begins the procedure of take bids for repairs.

Mr. Fambrrough answers the question by saying the Board receives a recommendation from the Buildings and Grounds Committee to go out for bids then it would appear on the agenda and by passage the Director would carry out the bidding process.

Ms. Marcus-Bey reminds the Board about the $50,000 threshold.

Mr. Gutowski suggests getting pricing on what's currently on the roof and what is currently used for roofing.

Ms. Synor stated that an email was sent out to everyone with that information shortly after the request was made.

Mr. Fambrough requested the amount that was paid to the minority contractor who worked with Johnson Control.
Ms. Synor answered by saying she had previously requested for the Fiscal Officer to inquire with Johnson Control, but he has never received a sufficient response. Ms. Synor then asks the Fiscal Officer to turn over the request to Mr. Gutowski.

Mr. Gutowski agrees, but advises the Board to not have high expectations, because there are no monies owed to Johnson Control.

Ms. McClarin seconded the motion.

Discussion: Mr. Mays inquired the total projection amount.
