ROOFING STATUS

- The Library was able to receive a proposal from Architect August Fluker, AIA for the purpose of being able to carry out the bidding project for the replacement roof. Considering the Board has granted the Director the ability to enter into a contract for the amount of $15,000. Mr. Fluker proposal has come in $600.00 over the original budget. The proposal was presented to the director on November 11, 2016 and shared with the Board via e-mail on the same day for assessment and review.

- Currently, in the Main Reference area, there continues to be ongoing failure with the plaster on the north wall and in the corners of the building in the Library. Staff and public are subject to the micro particles that have been disrupted by the water.
Ms. Turner stated that it is necessary for there to be a maintenance schedule for the building in order for it to operate properly without surprise major repairs being needed. This is something that may be discussed with the architect. Ms. Turner also stated that ADA compliance is a necessity.

Mr. Fambrough mentioned that ADA compliance was discussed by several Boards in the past and the new section that was added to the Library was grandfathered in and was legal without ADA issues as long as this was addressed in the future. Mr. Fambrough continued by saying that those issues weren’t previously addressed due to the infighting of the Board.

Mr. Mays stated that much of the Director’s report and the discussion that has followed are items that should be in the Buildings and Grounds report.

Ms. Synor asked how long the library card sign up was extended. Ms. Marcus-Bey replied that it was extended to November 15, 2016.

Mr. Fambrough stated that the hire and fire information was missing from the Director’s report.

Ms. McClarin said that information will be addressed in the Personnel committee.

Ms. Marcus-Bey also stated that the reason the Personnel committee was created was to address those issues.
VIII. Fiscal Officer's Report

Fiscal Officer Report

Ross A. Cockfield, Fiscal Officer

November 2016

Through five sixths of the year YTD General Fund expenditures are running well within budget – 78.69% vs 83.3% benchmark. Library materials purchasing and supplies purchases have been concluded to allow purchases to arrive and purchase orders to be cleared. All discretionary purchases except for the most necessary items have been suspended. Book orders that have not yet been filled by vendors would represent carry forward purchases orders for 2017.

Year-to-date revenues exceed expenditures by $66,731.12, which when added to our beginning fund balances and adjustments give us $891,034.40 in overall cash fund balances as of 10/31/16. Compared to 2015 thru ten months we have received $199,011.04 less in overall revenue. The drop in revenue has been matched with a corresponding drop in spending between both years. Ten month spending in 2015 was $2,083,630 compared to $1,979,795 or a difference/decrease of $103,835. We received less and we spent less between both years.

The Director and I have started looking at the budget for 2017 and have had discussion about changes which she would like to implement. We have prepared a preliminary budget which will go out to all Board members with accompanying budget justifications for all items reflecting a percentage change of +/- 10% and a dollar change of +/- $5,000. The budget and line item explanations will be out to you by the first week in December.

The audit is underway. Up to this point everything is going as expected. To continually improve our system of internal control I will be presenting to the Board suggestions for improvement. In keeping with these improvements there’s a resolution before the Board to adopt a modification to our Credit Card Policy. The Auditor of State released a bulletin in September 2016 calling for increased controls in the use of credit cards. Copies are available for those interested. In addition there’s a resolution to increase our Building Fund appropriations by $100,000. New, unexpected roof problems (over the staff lounge), completing the balance of brick work on the building, and architectural consultant costs for the roof, necessitate the increase. Any money not spent or encumbered will be carried forward to 2017 and will serve as unencumbered balances to start the year.

Lastly, last month I mentioned looking into a change from ADP as our payroll processing service. I’ve subsequently had discussion with the Auditor of State who said they’ve reviewed ADP’s processing controls and look favorably upon the use of ADP as a payroll processing service.
Unless I have a significant reason to change our payroll processing, I'm going to forgo any further efforts to find another processing service.

Mr. Mays asked how will the $150,000 approved by the Board be factored into the carry-over to the next year.

Mr. Cockfield stated we will need to re-appropriate the roofing funds if a contract is not signed before January 1, 2017.

Mr. Mays inquired about how the money for the roof is going to affect the Library overall?

Mr. Cockfield answered by stating this allows the Library to channel funds back into operations.

Mr. Mays motioned that the Board accept the Fiscal Officer’s Report. Ms. McClarin seconded the motion.
