What is your career or profession?
I am the Digital Publication Specialist here at the library. I run our new print center and I handle all things graphic design. I am responsible for our program guides, website graphics, and pretty much anything visual around the library.

What are your hobbies and interests outside of work?
I am an all around artist. I enjoy drawing and painting. I also make music, sing, model, act, and every day after work I go to the gym to workout and relieve stress and work on myself. I enjoy nature and I love to travel.

What are your favorite books/movies?
I do not read many books, I look at more editorials and columns. But when I do it’s usually something related to visual design or technology. I’m actually teaching myself how to code right now. My favorite movie has to be either Bad Boys 2 or Life.

Do you have a favorite quote?
“It matters not how strait the gate, How charged with punishments the scroll, I am the master of my fate, I am the captain of my soul.”
Invictus
- William Ernest Henley
